

SPS Communal Entrance Doors

DoorCare Maintenance Cover

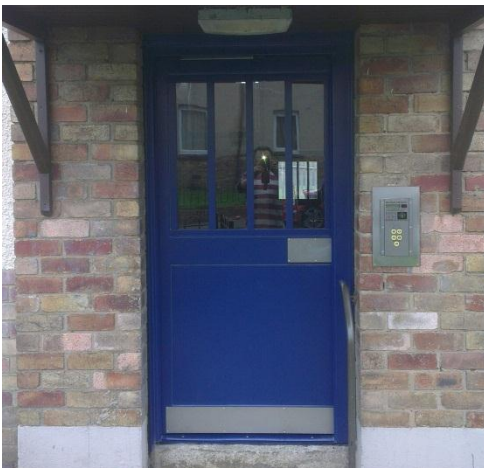

SPS Communal Entrance Doors are a secure and highly attractive solution for improving and regenerating communal areas in all social housing and public buildings. PAS23/24 certified and custom designs are available, which SPS design manufacture and install to the highest standards.

Our aftercare services ensure your doors are fully maintained, and we can repair and maintain all communal doors, regardless of origin.

Benefits of SPS Communal Doors

- Designed manufactured & installed to highest standard with latest CNC machinery
- Enhanced security reduces crime
- Attractive designs enhance communal areas
- Compatible with all access control systems
- Range of customisable designs, fanlights, screens, & colours to fit all communal areas
- Supply only or full install available
- Hard-wearing & long-lasting
- SPS removes & disposes of existing doors & screens
- 12 month warranty

DoorCare Maintenance Cover

Manufactured to the highest standards, SPS doors will continue to operate smoothly and reliably when properly maintained and serviced. The benefits of DoorCare Maintenance cover include:

- Regular, planned, 6 monthly inspection & maintenance performed on each door
- Extends life of the door, lowering overall costs
- Planned maintenance programme reduces risk of unexpected bills
- Detailed reporting of defects, wear & tear, and recommended repairs for each door
- All checks performed to approved quality and Health & Safety standards
- Covers SPS **and** other communal doors
- Visual appeal of the door is maintained

Highly skilled SPS installation teams are on hand throughout the UK, ready to perform your maintenance checks & free site surveys.

To find out more, speak to your local SPS representative, call us on 08457 62 65 42, or email us at info@spsdoorguard.com to arrange your free site survey today. Alternatively, visit us at www.spsdoorguard.com.
